# FAÇADE DESIGN AND INSTALLATION

**Façade design and installation are in the spotlight, and many tall building owners are struggling to make informed decisions to protect their residents.**

Guildmore are a long established Main Contractor operating principally in the London market, with particular experience in façade installation and turnkey compliance issues.

Guildmore provides a total compliance solution for your façade, from site investigation and design through to installation and certification, underpinned by a robust, fully documented quality control and audit system and photographic record.

*As a building owner, you take your responsibilities seriously. As a reputable Main Contractor with a 20 year track record, so do we.*

3

## CASE STUDIES

- 1 Recovery project including façade redesign to achieve compliance
- 2 Removal and replacement of ACM cladding across a 10 storey tower block including remedial works to fire safety features
- 3 Recovery project including due diligence, remediation and certification of entire façade package
- 4 Full scale destructive test to BS 8414-2 to demonstrate compliance of brick slip façade
- 5 Quality control and audit documentation

4

5

*Your stakeholders demand a bulletproof solution. Our robust quality control system gives you as much confidence in the layers that you cannot see as in those that you can.*

**Our end-to-end, one-stop shop service can assist you with every step of the process.**

If you think that you may have a problem but are not sure where to start, we can arrange exploratory opening up at key locations to assess the existing installation.

Based on this, we can prepare a draft scope of works, which may include the preparation of a revised design solution.

If you have already procured a design solution, we can offer third party verification of these proposals for added comfort.

Finally, we manage the entire installation, including access and logistics, and provide a robust paper trail for every element, at every floor, every time.

*We know your residents will have lots of questions about the process. Our dedicated Resident Liaison Officer will have all the answers and keep them informed every step of the way.*
